

# CLAY FACE BRICKS

Constantia Travertine

Roan and Firelight Travertine

## CLAY FACE BRICKS

The strength and durability of clay brick is equally matched by its intrinsic aesthetic qualities which are as rich as nature itself. The Corobrik Clay Face Brick is testimony to this colourful, earthy palette of nature, offering the widest variety of colours, shades, shapes and textures which enhance and harmonise with any environment.

For more information on classification and special shapes or advice, contact your nearest Corobrik Office.

## CLAY FACE BRICK CLASSIFICATION

- **FBX Face Brick Extra**  
Clay bricks that are selected or produced for their durability and high degree of uniformity of size, shape and colour.
- **FBS Face Brick Standard**  
Clay bricks that are selected or produced for their durability and uniformity of size and shape.
- **FBA Face Brick Aesthetic**  
Clay bricks that are selected or produced for their durability and aesthetics effect deriving from non-uniformity of size, shape or colour.

Every effort has been made in the photographic, reproduction and printing process to feature a portrayal of each panel as it would appear in real life. However, the only accurate way to assess the true aesthetic appeal of face brick is to view the product.
